THE NEW GFX5 HUMIDISTAT

GeneralAire's new Wi-Fi capable humidistat features all the benefits of the GFX4, with an upgraded software and connectivity to our brand new GeneralAire app.

Note: The GFX4 will be fully discontinued moving forward.

Why Choose The GFX5?

App Controlled System

Access your GFX5 right from your phone to set humidity, turn on/off your fan and more.

Precision Technology

Extreme accuracy, durable and long lasting stability.

Auto/Manual Mode Functions

Have control of your temp settings or let the humidifier use the humidity index to reach the humidity needed for your specific home.

Universal Capability

The GFX5 is a universal Wi-Fi technology device. It can be used on any brand/model of humidifier, and replace a standard non-Wi-Fi Manual or Automatic Humidistat. This includes units from Aprilaire, Condaire, Honeywell, Nortec among many others.
